NEW PTO Catalogue

Vapormatic is pleased to announce the launch of a new PTO catalogue for the agricultural and industrial market, including updated product, features and information. Vapormatic catalogues are recognised within the industry as one of the easiest to use, and this catalogue is designed to help you find products quickly and efficiently.

The catalogue presents over 790 Vapormatic solutions for your PTO shaft and component needs. The parts included in this catalogue are direct replacements suitable for Bondioli, Walterscheid and general applications. The range, developed with our manufacturing partner Benzi and Di Terlizzi, is designed to meet the requirements of customers worldwide.

Benzi and Di Terlizzi was founded in 1955 to manufacture agricultural PTO shafts. Benzi continued to develop their high quality product range and invest in an international distribution network to compete on a world wide scale. Today, Benzi are among the world leaders for engineering and manufacturing PTO drive shafts and have a certified status to many leading OEMs.

All Benzi yokes are steel forged, and are machined by Benzi using the latest technology to ensure consistency and accuracy of sizes. This enables them to provide maximum performance in all working environments. Benzi's unique "Quick Fit" safety guards have been designed and tested to meet the strict European Safety Regulations, and are CE marked.

Divided into 9 sections, this catalogue provides information for the novice and professional alike. Containing sections with technical support, a guide to identifying PTO shafts, trouble shooting, safety and maintenance guides; this catalogue makes it easy to identify the replacement PTO components needed.

Contact your Territory Sales Manager to review the products in this catalogue and discuss how they can support your business.

"Parts you can TRUST" – a quality message from the Vapormatic brand is carried throughout this range and backed by our ISO9001:2015 accredited quality control processes.

Order your catalogue today by adding part No. PEA0017 to your next order or alternatively the catalogue can be found at <https://www.vapormatic.com/vapormatic-e-catalogues/2018-pt0-catalogue.ashx>

All Vapormatic quality replacement parts carry an industry leading **12 month parts and labour warranty**. For further information on specific items please visit www.vapormatic.com
